

# KOMMALAPATI TARAKA SHIVA RAMA KRISHNA

 kommalapati.tarak7@gmail.com |  +91-7093348529 |  Hyderabad, Telangana, India

## PROFILE SUMMARY

Full Stack Developer with expertise in Java Backend and MERN Stack development, skilled in building scalable web applications, REST APIs and efficient backend systems. Proficient in Java, Spring Boot, React.js, Node.js, Express.js and MongoDB with a strong focus on clean code, performance and problem solving. I am a fresher looking for an opportunity to work in a dynamic environment and contribute solutions to real-world problems.

## TECHNICAL SKILLS

|                         |                                                                                                        |
|-------------------------|--------------------------------------------------------------------------------------------------------|
| Programming Languages : | Java, C++, C, JavaScript, HTML5, CSS3                                                                  |
| Backend :               | Spring Boot, Spring MVC, Spring Security, Hibernate, Spring Data JPA, Node.js, Express.js, JDBC, Maven |
| Frontend :              | React JS, Tailwind CSS, Bootstrap, Responsive web design                                               |
| Databases :             | MongoDB, MySQL, PostgreSQL                                                                             |
| Cloud :                 | Git, GitHub, Vercel, Render                                                                            |

## PROJECTS

### Employee Management System

Tech Stack : React JS, Tailwind CSS, MongoDB, Express.js, Node.js

- Architected and developed a full-stack Employee Management System using the MERN Stack.
- Implemented CRUD operations, JWT authentication, and role-based access control.
- Designed scalable RESTful APIs connecting React frontend and Node.js backend.
- Deployed frontend on Vercel and backend on Render.

### Retail Billing System

Tech Stack : React JS, Bootstrap, Hibernate, Spring Boot, Spring Data JPA, Spring MVC, Spring Security, Maven

- Developed a fast and secure Retail Billing System using Spring Boot and React.
- Automated billing, invoice generation and inventory management processes.
- Designed a responsive user interface for seamless billing and sales tracking.
- Implemented REST APIs and database integration for efficient data handling.

### Patient Management System

Tech Stack : Spring Boot, Spring Data JPA, PostgreSQL, Maven, Docker

- Developed a scalable Patient Management System using Spring Boot to manage patient records, appointments and billing efficiently.
- Designed secure REST APIs with authentication and role-based access for reliable healthcare data management.
- Containerized the application using Docker to ensure consistent deployment and easy scalability.
- Improved backend performance and system reliability through optimized architecture and deployment workflows.

## EDUCATION

Bachelor Of Technology (B.Tech), Computer Science Engineering  
SRKR Engineering College, Bhimavaram, 534204  
CGPA : 8.10/10

May-2025

## INTERSHIPS & EXPERIENCE

- Hands on experience in building full stack web applications using Spring Boot and MERN Stack.
- AI & ML internship exposure to data visualization, Machine Learning algorithms, LLMs and RAG models.

## CERTIFICATIONS & ACHIEVEMENTS

- HenoticTechnologies** : Developed a RAG based AI model and fraud detection system for credit card transactions.
- Cisco NetAcad** : Completed an intensive CCNA-Computer Networking workshop, gaining hands-on experience in routing, switching, IP addressing and network troubleshooting.

## STRENGTHS

- Strong problem solving ability and quick learner with adaptability to new technologies.
- Good communication and team collaboration skills.
